The LUCKY NUMBER will be played on all hard board games and paid out no more than once a night. The lucky number will be the first ball out on the Olive Early Bird. The winner of the LUCKY NUMBER will be the number that is called after the LUCKY NUMBER. The amount will be set by the amount of people that play and will cost \$1 per night and will be capped off at \$1000. After the amount reaches \$1000 there will be another one started. This gives everyone 17 chances each week to win. Any money that is not hit will be carried to the next week.
